

WEEKLY CHAMPION.
SATURDAY, DECEMBER 1.

M. Abernethy has returned to Hackberry.

John M. Miller left for the Needles to-day on a business trip.

D. P. Kimball, Mormon bishop, died on the San Pedro, A. T., on the 20th ult.

A wedding is on the tapis in Peach Springs. The justice of the Peace is ready to perform the ceremony.

Applications for the "Resources of Arizona" should be made to Pat Hamilton, Phoenix, Arizona. They are furnished free.

The turn-table for the round-house at this place is being put in position to-day. The work of building is progressing rapidly.

Wooster M. Hardy, nephew of our county commissioner, W. H. Hardy, died at Mineral Park on Sunday, Nov. 18th, aged 38 years.

W. H. Lake, the merchant prince of Kingman, has been appointed Justice of the Peace at that place. Lake is just the man for the place.

Anson H. Smith, of the Mohave County Miner, was in Peach Springs on Saturday night last, on his way to Albuquerque, and paid the CHAMPION a visit.

Fred Kauffman, of Winslow, was married at the M. E. parsonage, in Albuquerque, on Wednesday evening last, to Miss Mattie Wagonmuth, of Wabash, Ind.

Dixon, the man who murdered Dunbar, at Flagstaff, a few weeks since, was acquitted by the grand jury at Prescott. He made out a case of purely self defence.

Col. C. E. Daily is strongly recommended for the position of Surveyor General. Petitions endorsing him are being very generally signed throughout the Territory.

It would be difficult to find a more genial, health-giving climate than that of Northern Arizona. The delightful autumn days now enjoyed by our people are not excelled anywhere in this great country.

Mr. Frank Stultz, locomotive engineer on the A. & P. road, has resigned his position. Mr. Stultz, during his stay in Peach Springs, has gathered about him many warm friends, who will regret his departure.

The party given at Kingman on Thanksgiving night was largely attended, and those present speak of it as the affair of the season. Hackberry was well represented at the social gathering. We regret that Peach Springs was not represented.

C. R. Williams, of the Atlantic & Pacific, has been requested by the Department of Immigration of the A. T. & S. F. to collect and forward to them samples of the ores of Mohave county. We hope the mine owners of this county will comply with the request.

The "army" in Arizona is at present more deeply interested in the advisability of splitting a pair and drawing to a flush than in finding Charlie McComas or any other orphan who may have had the misfortune to lose his parents at the hands of our much abused Apache wards.

John O. Dunbar, of Tombstone, has purchased the Zeckendorf property, corner of Fourth and Allen streets, Tombstone, and proposes to start a livery stable and corral on the premises. He is the best livery stable man Tombstone has ever had, and never fails to meet with success in the business.

Bartlett's jewelry and music emporium, corner Spring and Main streets, Los Angeles (wholesale and retail), is the largest establishment of its kind in Southern California. At the present time their workingman's watch, the wonder of the world, dust and waterproof cases, sold for \$12, is meeting with an immense sale. Their repair department is presided over by the best watchmaker in the state. Orders by express or mail promptly filled. Read their advertisement.

Work in the coal mines at Gallup is now increasing. The influx of miners and laborers at Defiance and Gallup just at present is something that country has never seen before. Ground has been broken for a 1700 foot siding, to run from the Atlantic & Pacific road to Bell's coal mine, and another one which is three and one-half miles in length. One of the spurs is a commencement of a through line to Durango, Colorado, while the other will form a connection with the Mineral Belt road in Arizona.

The well-known furniture and carpet house of Barker & Allen, Nos. 322, 324 and 326 Main street, Los Angeles, present their advertisement to the readers of the CHAMPION in another column. Furniture, carpets, bedding, wall paper, shades, cornices, lace curtains, etc., a very heavy stock, always kept on hand. They are a very reliable firm to deal with, and as goods are packed and delivered at the depot free of charge, a fair percentage is saved in this respect. Those desiring anything in their line will do well to communicate with them.

Fount Williams leaves Wednesday next for Fenner, Cal., to run the stage from that place to Providence.

Mr. E. Meyers, traveling for Santiago Baca's well-known liquor house, in Albuquerque, arrived in town yesterday.

Harley Fay received this week a large invoice of fresh fish, chicken and fresh oysters from Albuquerque. We live high in Peach Springs now.

D. H. Newton and wife and James Newton, of Massachusetts; Mrs. Ruth Q. Powell, of Scranton, Pa., and Col. Forsythe Harrison, quartermaster's agent at Ash Fork, visited the Grand Canon this week.

General Sherman has retired from the army, but will continue to draw from Uncle Sam's sack \$17,500 per annum till death checks him off the list. Yet some people say republics are ungrateful.

There are 5,500 Indians now at San Carlos, and only one company of soldiers. The boy brought in by the renegades, supposed to be Charlie McComas, is not him. The Indians at the reservation now suppose the McComas boy to be dead.

Conductor Dodge, running on the Fourth Division, has resigned. Cause, probably, too much work for little pay. Mr. Dodge is one of those quiet, reliable gentlemen who attends to his own business and says very little. We wish he could remain with us.

Senator Fair says he does not believe any man in the world knows his opinion on political matters. Really, we were not aware of the existence of any wild demand for Mr. Fair's political views; and, in fact, had struggled along under the impression that he had none.

The Prescott Miner started a story that May Woodman, the murderer of her paramour, at Tombstone, had become enciente since she was taken to prison at Yuma. The story turns out to be utterly false, and the Miner may be called upon to pay some damages for making the accusation.

Sergeant L. D. Lawrence, of the Sixth cavalry, shot and killed William Hill in a dance house kept by the deceased, at Wilcox, on Wednesday last; also shot Sergeant Duffy and a sporting man named Al Porter, probably fatally. Lawrence was held for murder, and now languishes in jail at Tombstone.

A circular received announces that about the middle of December, Mr. George McCarter will commence the publication of a newspaper, to be called the Apache Chief, at St. Johns, Apache county. The circular states that the Apache Chief will be an anti-Mormon journal to the heart's core, though not unreasonable or abusive.

Congressman Page, representing California, was recently in Prescott. His object in visiting Arizona is to procure a cattle range containing from 500,000 to 1,000,000 acres. He is negotiating with the Atlantic & Pacific railroad for the desired range, which is practically concluded. The company will start with 10,000 head of the best cattle, with a view of increasing the number to 50,000.

Mr. Charles Spencer, the well-known miner, prospector and government scout, accompanied by William Ridenour, the discoverer of the Hackberry mine, and Mr. Kemp, who keeps the station between Mineral Park and Kingman, arrived in town this morning, en route to Pine Springs and vicinity, on a prospecting tour, and to do assessment work on mining property in that section. They will be out about one month.

J. O. Dunbar, ex-county treasurer of Cochise county, who was on trial for forgery, at Tombstone, last week, was acquitted by the jury. Now, the question is, who got the money on those forged warrants? We never believed Dunbar did, as a fair and thorough trial of the case has proved. The old board of supervisors of that county were rotten to the core, and there are those now in Tombstone who know where the money went.

The Globe Silver Belt announces that contractors will be at work on the Mineral Belt railroad next month. Important negotiations are pending as to the sale of bonds and letting of contracts, with the best promise of success. Gen. Green B. Raum, late Commissioner of Internal Revenue, is president, and Woodman S. Eaton, general freight agent of the Maine Central railroad, is secretary of the Construction Company. Persons entitled to stock will receive it by Dec. 1st.

Mr. J. C. Burnett, who for the past eight months has been traveling auditor for the Atlantic & Pacific, has been promoted to the position of head freight and ticket clerk in the local auditor's office. Mr. Burnett is a gentleman of fine business abilities and thoroughly understands the details of railroad work, having had twelve years' experience in both freight and ticket departments on eastern roads. Mr. L. H. Northrup succeeds Mr. Burnett as traveling auditor. Mr. Northrup was in Peach Springs this week, attending to the affairs of the company. He is a young gentleman of fine business qualities, and his social bearing wins for him hosts of friends.

Mr. Chas. C. Hall, traveling correspondent and solicitor for the Las Vegas Daily Gazette, has been in town this week. The Gazette enjoys an extended circulation, is a newsy sheet, and in its representative, Mr. Hall, the paper has a ready writer and a polished gentleman.

Patrick Hamilton, in the "Resources of Arizona," says we have in this Territory 35,000 Indians that occupy 17,822 miles of the richest land in the country; 10 military posts, 26 churches, 97 public schools, 680,000 sheep, 31,800 horses, 13,600 mules, 11,400 hogs, 288,000 head of cattle (five years we had only 40,000 head), and 68,000 acres of land under cultivation.

The first convention of the W. C. T. U. will be held in the Congregational Church, Prescott, Dec. 12th and 13th, 1883, at which time a Territorial organization will be effected. Mrs. Mary F. Shields, President of the Colorado W. C. T. U., will be present. Efforts will be made to secure reduced rates of travel. For a programme of the proceedings, address Mrs. E. C. Dake, Prescott.

The opposition to Ben Butler spent \$5,000,000 to defeat the cockeyed man of destiny, and the principal contributors to this colossal corruption fund were such canting moralists as Senator Hoar, who has the supreme impudence to stand upon the platform and pose as the champion of a free and untrammelled ballot. The political morals of puritan Massachusetts are in a sad state of demoralization.

The red glow from the departing sun noticed in the western sky has called forth much admiration, and has excited the curiosity of a number of our citizens, to whom the following explanation from a signal officer in the east may prove of some moment: "The redness of the sky is due to a phenomenon which occurs about this season of the year, called a dry fog. This appearance is characterized by a hazy condition of the atmosphere, a redness of the sky, absence of rain and a mild temperature. This appears to result from a dry and stagnant state of the atmosphere, during which the air, particularly the upper portions, become filled with dust and smoke, by which its transparency is greatly impaired."
